SAFARI Montage – Module 1

Navigation

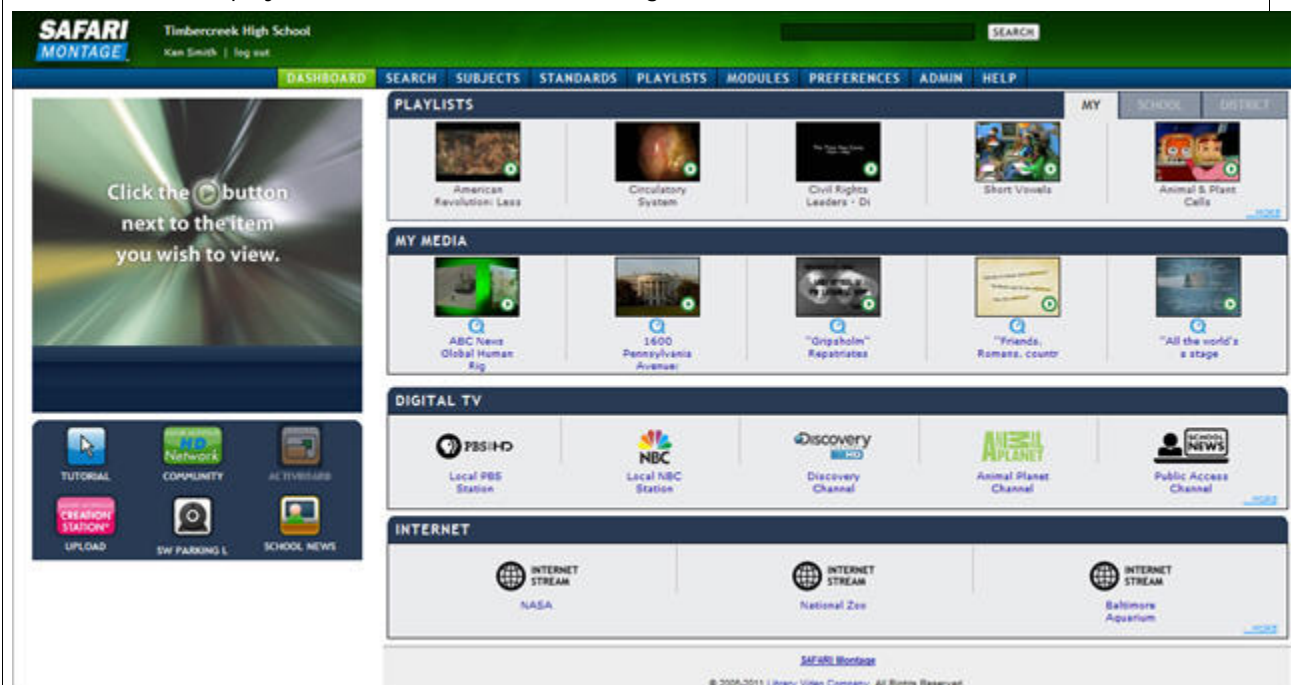

Once a user is logged into SAFARI Montage, the above main navigation bar or header will be visible at the top of the page. All the buttons necessary to navigate through the server's operations are located here.

Navigation Buttons (Tabs)

DASHBOARD

The Dashboard button puts the user on the Dashboard page. From here, the user can view videos as well as see a list of recent playlists, the user's media, streaming content and received content.

SEARCH

Click the Search button to open the Search page. Here, users can perform more refined searches than they can in the Quick Search box. Refer to the Search section to learn about these features.

SUBJECTS

Click the Subjects button to open the Browse by Subject page. Learn more about this useful breakdown of videos by subject area under the Subjects section.

STANDARDS

Click the Standards button to access the State Curriculum Standards page. Refer to the Standards section to learn more about this option.

PLAYLISTS

SAFARI Montage – Module 1

Click the Playlists button to locate any playlists that you've created. Learn more about this feature under the Playlists section. You can also access Shared Playlists which are playlists created by others in your SAFARI Montage network.

MODULES

Click the Modules button to locate any add-on products that are available.

PREFERENCES

Click the Preferences button to locate user preferences and information. Learn more about these features under the Preferences section.

HELP

Click the Help button to locate help information on SAFARI Montage operation. Learn more about the Help feature under the Help section.
